Our Pre-K3 programs are more affordable than traditional daycare programs

Our curriculum is rooted in Christian values and includes specials where students participate in music, art, physical education, as well as an introduction to computers and Spanish.

At SSPP, we offer a loving and nurturing environment that lays the foundation for lifelong learning.

Students will be welcomed into our school community from day one through our integrated buddy program. Pre-K3, Pre-K4, and Kindergarten students are paired with a 6th, 7th, or 8th grade student for the duration of the year; attending mass together and collaborating on projects in the classroom and in the community.
